Khonthai Foundation

www.khonthaifoundation.org

"Khonthai Foundation" is a social service organisation for a sustainable society. We believe that in our big and complex society full of diversity, effective solutions require collaboration from all sectors. We are working closely with intermediary organisations which are mobilising change in a variety of issues. Our goal is to empower "active citizens" so they can systematically take part in creating social changes for the common good through our "Collaboration for Good Society Platform", a coordinating body that collaborates with different partner organisations.

"Khonthai Foundation" also runs the "Social Investment Platforms" established through a collaboration among businesses, social enterprises, a network of social entrepreneurs, and the public. The platforms include www.taejai.com, BKIND Mutual Fund, Thai CG Fund, and the Media for Social Justice Fund, which provide necessary funding to enhance the efficiency of various social projects and mechanisms. Our Social Communication for Change is a platform that engages with mass media outlets and media influencers, as well as new media platforms. The platform aims to amplify social impact and foster sustainable development in collaboration with partner organisations.

Rationale

Thailand has been ranked as one of the countries with the highest rate of gross disparity in the world as the country is faced with various complex social issues. The public is also seldom informed about such circumstances. This means their participation and collaboration in addressing such issues are lacking. The world is faced with many forms of uncertainties and challenges, which certainly cannot be addressed individually by one sector nor a single group of individuals. Therefore, it would be necessary to create a systematic change by mobilising collaboration from all sectors and groups to successfully reduce disparities in society.

Objectives and the organisation's roles in the ecosystem

Khonthai Foundation aims to create a participatory ecosystem that drives "social change". The Foundation acts as a "supporter" that coordinates efforts through its networks and partnerships to tackle various social problems. It mobilises collaboration from all the people of Thailand and stakeholders from all sectors so that they could support each other in addressing issues related to disparities in order to promote a well-being in society.

Platforms and Partner Organisations

1. Collaboration for Good Society

Issue	There are various major issues and disparities that need to be addressed through the collaboration and efforts of all sectors. These include disparities in educational opportunities, youth and child development, employment for people with disabilities, life qualities of the elderly people, and in the well-being of the population. Efforts also need to be made in promoting good governance and combating corruptions.
Objective	In enhancing efforts and impacts created by civil society organisations, Collaboration for Good Society acts as an intermediary body that connects such organisations to necessary resources. It enhances participation and contribution of various entities and active citizens in bettering society through their expertise and specialisations.
Roles in the Ecosystem	Joining collaborative forces and promoting partnerships between organisations from various sectors and active citizens to create systematic actions and expansions of social impact.
Partner Organisations	 Catalyst is an intermediary organization, which forges collaboration between partner organisations that work on specific thematic areas and across different areas, including: Education – LEARN Corporation Co.,Ltd. Health and well-being- Reorientated Holistic Health Delivery Institution Governance – Hand Social Enterprise, Co.,Ltd. Social Investment – Change Venture, Co., Ltd. The Good Society Network drives social changes in various areas Contributing partner organisations and volunteers

2. Social Investment Platforms

Issue	Thailand is facing many issues and challenges that are rapidly exacerbating and becoming more and more complex, including the lack of access to education and healthcare services, climate change, natural catastrophe, injustice in the political and economic systems, amongst others. Solutions and actions to tackle the above challenges proposed by the public and private sectors, are being implemented on a smaller scale. They also lack integration and coordination, as well as expansion to a scale that would match the magnitude of such issues. Social investment platforms that involve the participation and contribution of all sectors to address the above challenges are therefore crucial. Otherwise, there could be more challenges in implementing larger-scale solutions to match up with the scales of various environmental and social issues that are rapidly affecting the country.
Objective	The objective of the Social Investment Platform is to promote contribution and participation of the active citizens, as well as the private and public sectors in resource mobilisation for various social projects to produce tangible and sustainable outcomesthat can be continuously expanded. This is one of the ways to promote active citizenship that helps to tackle current social and environmental issues and enhance social opportunities.
Roles in the Ecosystem	The Social Investment Platform is playing a significant role in strengthening the overall social ecosystem. Taejai is a platform that is accessible to thousands of individuals, who have offered their contribution towards various social projects. The platform is connected to the BKIND Mutual Fund and the Thai CG Fund . Both of the Funds have allowed a diversity of investors to come together and demonstrate their social responsibilities by taking a share in donation. The Media for Social Justice Fund aims to promote transparency using media platforms and information towards the pursuit of truth in Thai society. In other words, the Fund becomes a social investment platform that connect the public, investors, and media outlets to collaborate in making an impact.

3. Social Communication for Change

	7
Issue	Tackling a large-scale problem, especially social disparities, would require contribution from a vast number of individuals. Effective communication is, therefore, crucial in the present days. However, communications from civil society organisations are still inadequate and therefore require further enhancement. While media organisations may have the potential to reach out to numerous audiences, the public still have limited access to content and information on how social change can be driven. Additionally, media outlets tend to emphasize on the 'social phenomena' rather than the 'mechanisms' to tackle various social issues. This means people in society would not be able to see the ways in which they could collaborate and contribute to addressing such issues.
Objective	Joining forces between different media outlets and promoting their roles in encouraging and advocating for social change towards an end goal of creating a systematic change.
Roles in the Ecosystem	Creating an enabling ecosystem for sustainable development through its role as a service provider in communications for development by offering advice, coordinating, connecting and developing collaboration between the media and civil society partner organisations to drive social change.
Partner Organisations	 News Agency Onlined Media People Media/Influencer Academic Departments in Journalism Professional Organisation in Medias.

Financial Auditing Report

KHON THAI FOUNDATION

REPORT OF CERTIFIED PUBLIC ACCOUNTANT

AND FINANCIAL STATEMENTS

DECEMBER 31, 2023

AUDIT REPORT OF CERTIFIED PUBLIC ACCOUNTANT

To the Board of Director KHON THAI FOUNDATION

Opinion

We have audited the financial statements of KHON THAI FOUNDATION, which comprise the statement of financial position as at December 31, 2023, and the statement of income, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of KHON THAI FOUNDATION as at December 31, 2023, and its financial performance for the year then ended in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities.

Basis for Opinion

We conducted our audit in accordance with Thai Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Foundation in accordance with the Federation of Accounting Professions under the Royal Patronage of his Majesty the King's Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Foundation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Foundation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Foundation's financial reporting process.

Another matter

Financial statements of KHON THAI FOUNDATION For the year end December 31, 2022, audited by another auditor in the same company as me. Who expressed their unqualified opinion according to the report dated March 1, 2023.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Foundation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including
 the disclosures, and whether the financial statements represent the underlying transactions
 and events in a manner that achieves fair presentation.

We communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2023

1. GENERAL INFORMATION

Khon Thai foundation was registered under the Civil and Commercial Code on September 26, 2011. Its head office is located at 1 Premier Corporate Park, Soi Premier 2, Srinakarin Road, Nongbon, Pravet, Bangkok.

The purpose

- 1.1 Promote Thai people in all sectors To create happiness in society under the concept "Thais only.

 That makes Thailand beautiful."
- 1.2 Strengthen the values of Thai people to raise awareness of their civic duties. And participation in improving the quality of life of Thais and the country.
- 1.3 Create a participatory mechanism that all Thai people can access by listening, speaking, systematic thinking.
- 1.4 To carry out or cooperate with charitable organizations. And the public interest organization.
- 1.5 No political action.

2. BASIS FOR PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with Thai generally accepted accounting principles under the Accounting Act B.E. 2543, being those Thai Accounting Standards issued under the Federation of Accounting Profession Act B.E. 2547

The financial statement are prepared in accordance with Thai Financial Reporting Standard forNon-publicly Accountable Entities (TFRS for NPAEs) promulgated by the Federation of Accounting Professions (FAP) during 2011. The adoption of these TFRS for NPAEs has resulted in change in the Foundation's accounting policies. The effects of those changes that have had no a significant impact on the Foundation's financial statements.

The financial statements are prepared on the historical basis except as stated in the accounting policies.

The preparation of financial statements in conformity with TFRSs for NPAEs requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from estimates.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Revenue and Expenses Recognition

The Foundation recognized income and expenses on an accrual basis.

(Mr.Vichien Phongsathorn)

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2023

3.2 Cash and cash Equivalent

Cash and cash equivalents consist of cash and bank saving deposit, current account, and fixed deposit not over 3 months, and short – term investment which repayment within not over 3 months and without obligations.

3.3 Depreciation

Building improvement and equipment are stated at cost less accumulated depreciation.

The foundation calculates the building improvement depreciation. The straight-line method is based on the estimated useful life of 10 years.
